EQUIP: YOUR PERSONAL JOURNEY TO THE KINGDOM

BY PETER TSUKAHIRA

We encourage you to get a copy of the new book “Equip” by our good friend in ministry, Peter Tsukahira. He has a global teaching ministry and is known for his clear insights into the Kingdom of God, our Christian walk, and how believers in the nations should relate to Israel. Peter has now condensed many of these biblical truths into a collection of 52 essays – one for each week of the year – to help Christians understand our need for discipleship in Christ.

Each chapter draws upon Peter’s own journey of faith and calling into ministry, providing a modern-day approach to discipleship based on the ancient paths of our Hebraic roots. His aim is that Christians today be equipped, according to Ephesians 4:11-12, to be spiritually fruitful in the end times. The book includes teachings on discipleship in the Kingdom, restoring foundational truths to the Church, the interplay between faith and works, and law and grace, and having a global vision which encompasses Israel and the nations in our day. All 52 chapters also come with discussion and prayer points, making it a great guide for weekly Bible study and prayer groups.

Peter is co-founding pastor of the Carmel Assembly near Haifa and director of the Mount Carmel School of Ministry. You will be challenged and enriched by the biblical insights and truths presented in his new book *Equip*. 🌍

ICEJ HEMOCARE DELIVERS A SWEET SURPRISE!

BY LAURINA DRIESSE

The gift bags were set out and ribbons perfectly measured for tying around 120 beautiful holiday presents in anticipation of Rosh Hashanah in early September. Each gift bag contained a magnetic fridge notepad, a lovely handmade mug, specialty teas grown around Israel, and a jar of honey, thoughtfully wrapped together in a new dishtowel and finished with a ribbon and little pomegranate symbolising this special holiday season. The gifts also came with a unique card designed by ICEJ Homecare nurse Corrie van Maanen with a scripture verse from Isaiah 12:2.

Corrie soon started making her way across Israel to visit single mothers, the disabled, Holocaust survivors and others she cares for. The Jewish holiday of Rosh Hashanah is a highlight of the year for those under her care. “As they receive this gift of love, they know that they are remembered during this holiday time”, explained Corrie. “Many come from the former Soviet Union, where they were not allowed to celebrate the Jewish holidays.”

“This is a rich and special season, and the gift card will be treasured”, Corrie added, recalling how one lady she visits wished for a special box to store all her ICEJ Homecare cards. For her next birthday, Corrie gave her a beautiful storage box and now, whenever she feels lonely, she takes it out and reflects on all the words of encouragement she has received from Corrie over the years.

The pomegranate symbolises righteousness, knowledge and wisdom, while the honey symbolises a wish for a sweet new year. “Over this Rosh Hashanah season, this is certainly what we want to bless them with”, said Corrie. 🌍

Your giving enables Homecare to extend personal hands-on support to elderly and disabled Jewish immigrants in need.
